

CERTIFER SOLUTIONS MAINTENANCE

Maintenance is the main cost hitter in railway operations where improved RAMS and RCM processes may significantly reduce your cost level.

✓ What influences your maintenance performance level

- Operational cost
- Availability, regularity
- Asset management
- Your position on the competitive edge

So if you experience...

- Excessive maintenance cost?
- High preventive and corrective maintenance burden?
- Safety incidents?
- Changed operating context
- High maintenance backlog?
- Low availability and reliability?

Our Solutions

- > Experienced personnel
- > Feasibility study
- > RCM analysis to your challenge
- > Modern maintenance philosophy

Benefits to your business

- ✓ Reduced cost
- ✓ Improved asset management
- ✓ More reliable operations
- ✓ Modern maintenance planning
- ✓ Increased dependability
- ✓ Continuous improvement process
